PROFESSIONAL SUMMARY

Technical Leader with 10+ years of experience in full-stack development, team leadership, and scalable system design. Obsessed with building SaaS Factory framework focusing on turning ideas into impactful digital products.

EDUCATION

Rajshahi University of Engineering & Technology

April 2013 - December 2017

Bachelor's, Computer Science

GPA: 3.46 / 4.00

- Thesis: A Hybrid Model for Mining Fuzzy Association Rules on Frequent Item-sets Using Evolutionary Optimization
- Related Courses: Data Structures & Algorithms, Object-Oriented Programming, Statistics, Discrete Mathematics, Probability Theory, Artificial Intelligence, Neural Network, Database Management, Web Technology, Distributed System.

EXPERIENCE & LEADERSHIP

shamscorner LLC

Remote

Founder & CTO

August 2024 - Present

- Founded and leading Shamscorner LLC, a software agency that transforms client ideas into full-scale products through end-to-end development and partnership-driven solutions. Helped launch 5 startups from concept to MVP.

Secureship inc.

Remote

Frontend Lead

October 2021 - August 2025

- Directed frontend team of 6 developers at Secureship Inc., delivering scalable client-facing, administrative, and marketing products. Streamlined development speed by 3x.
- Collaborated with design and product teams to optimize UX flows, resulting in a 40% increase in traffic and revenue.
- Key tech stack: Vue, Nuxt, Svelte, React, NestJS, AstroJS, Microservices, AWS.

Splashr

Remote

Full-stack Web Developer

August 2020 - July 2021

- Developed internal tools integrating multiple services, simplifying workflows for the marketing team and reducing operational overhead by 65%, which led to a 10x faster campaign execution.
- Key tech stack: Vue, Nuxt, PHP, Laravel, PostgreSQL, GCP, Google Suite API.

Pattern Inc.

Remote

Full-stack Developer & Data Analyst

February 2019 - July 2020

- Developed over 100 report-building tools for the marketing team, enhancing data accessibility and enabling faster, easier decision-making.
- Collaborated closely with the data analytics team to streamline data processing and reporting workflows, resulting in the creation of 30+ additional reports.
- Key tech stack: React, Vue, Laravel, MySQL, AWS.

PROJECTS

Secureship's SaaS, Marketing & CRM

Remote

Frontend lead

October 2021 - July 2025

- As Frontend Lead, my goal was to rebuild and improve the old system, handling everything from hiring and mentoring to planning, research, business, and development across four projects, which increased traffic and sales by 40%.

Micro-course SaaS Factory Framework Learning Platform - "Code with Shamscorner"

Remote

Owner & Technical Lead

August 2025 - Present

- Leading the creation of a SaaS Factory micro-course focused on helping developers transform concepts into deployable, scalable software solutions.
- [Link to project](#)

Sales Report Builder

Remote

Full-stack Developer & Data Analyst

February 2019 - July 2020

- I worked on an internal report builder platform that collects data from Amazon, Walmart, Shopify, and Target to generate customizable reports in Google Slides and PDF
- Sales team can create, store (via Amazon S3), and share reports through email
- The project involved large-scale data processing and advanced reporting automation.
- [Link to project](#)

Splashr Client SaaS

Remote

Full-stack Web Developer

August 2020 - July 2021

- As a Full-Stack Web Developer at Splashr, I helped build a SaaS platform for managing advertising assets and client collaboration
- I worked on video data streaming, integrated APIs like Frame.io and Google Workspace, and gained valuable experience in complex software architecture.
